1. About the College

Sahya Arts and Science College (SASC), driven by the Sahya Pravasi Cooperative Society Ltd (Reg. No.M.862), represents a unique and dynamic educational venture. This Society is not merely a partner but the catalyst for the college's extraordinary growth and transformation. Established in Wandoor in the year 2013, Malappuram, SASC stands as a leading educational institution, strategically located in the serene landscape of Palamadam, just 4 KM from Wandoor town.

Affiliated with the prestigious University of Calicut and accredited by the Government of Kerala and the UGC, SASC offers a comprehensive range of courses. From its modest beginnings with 4 undergraduate programs and 93 students, SASC has evolved into a vibrant institution, now serving a diverse community of 1000 students through 9 undergraduate and 2 postgraduate programmes. This remarkable journey was made possible by the collective efforts of local residents and over 200 NRIs from the Middle East, who recognized the transformative power of education for community development. As the first self-financing college in the region, SASC addresses the critical shortage of higher education institutions, serving nearly 5000 higher secondary graduates annually across eight Panchayaths. In a short span, SASC has established a permanent campus, embodying its noble mission: Empowering the Youth for a Brighter Future.

Our college initially offered 12 undergraduate programs but has streamlined them to 10 due to modernization efforts and limited job opportunities in certain areas. Furthermore, 2 of these UG courses have been replaced to better meet current industry needs. Our graduates are now working around the world, demonstrating the global reach and impact of our alumni. The college is recognized under section 2(f) of the UGC Act 1956 and has been awarded the ISO 9001:2015 certification, underscoring our dedication to providing quality education and our commitment to continuous improvement. Now we have 10 UG programme and 2 PG programme

17.3. An aggregate of P grade (after external and internal put together) is required in each course for a pass and also for awarding degree (A minimum of 20% marks in external evaluation is needed for a pass in a course. But no separate pass minimum is needed for internal evaluation). No separate grade/mark for internal and external will be displayed in the grade card; only an aggregate grade will be displayed. For the successful completion of a semester, a student should pass all courses. However, a student is permitted to move to the next semester irrespective of SGPA obtained.

Evaluation (both internal and external) is carried out using Mark system. The Grade on the basis of total internal and external marks will be indicated for each course, for each semester and for the entire programme. Indirect Grading System in 10-point scale is as below:

Annexure-1

Method of Indirect Grading

Ten Point Indirect Grading System

Percentage of Marks (Both Internal & External put together)	Grade	Interpretation	Grade point average (G)	Range of grade points	Class
95 and Above	O	Outstanding	10	9.5 - 10	First Class with Distinction
85 to below 95	A+	Excellent	9	8.5 - 9.49	
75 to below 85	A	Very good	8	7.5 - 8.49	
65 to below 75	B+	Good	7	6.5 - 7.49	First Class
55 to below 65	B	Satisfactory	6	5.5 - 6.49	
45 to below 55	C	Average	5	4.5 - 5.49	Second Class
35 to below 45	P	Pass	4	3.5 - 4.49	Third Class
Below 35	F	Failure	0	0	Fail

18. CGPA Calculation

$$CGPA = \frac{\text{Total Credit points obtained in six semesters}}{\text{Total Credit acquired (120)}}$$

Example

$$CGPA = 136 + 145 + 161 + 148 + 131 + 141 / 120 = 862/120$$

$$CGPA = 7.183$$

$$\text{Total Percentage of marks} = (CGPA/10) * 100$$

$$\text{Total \% of marks} = (7.183/10) * 100 = 71.83$$

19. SYLLABUS FOR VARIOUS COURSES

The medium of instruction and examination for all programs shall be English. Programs are divided into four courses namely.

While synthesizing degrees, there shall be no restriction on the subjects/ courses across the disciplines, as far as possible. Conscious efforts to develop cognitive and non-cognitive problem-solving skills among the learners shall be part of the curriculum.

The programmes shall empower graduates as expert problem solvers using their disciplinary knowledge and collaborating in multidisciplinary teams. The proposed FYUGP curriculum shall comprise Three Broad Parts:

- Foundation Components,
- Discipline Specific Pathway components (Major/ Minor)
- Discipline Specific Capstone Components.

The Foundation component of the FYUGP shall consist of a set of General Foundation Courses and a set of Discipline Specific Foundation Courses.

The features, meaning, and purpose of CUFYUGP shall be stipulated by the UGC and AICTE and as adapted by the Kerala State Undergraduate Curriculum Framework (KSUCF).

The practice of lateral entry of students to various years exists, but a Degree shall be awarded only upon successful completion of the third year. CUFYUGP shall have three Broad Pathways,

- 3-year UG Degree,
- 4-year UG Degree (Honours), and
- 4-year UG Degree (Honours with Research).

Students who choose to exit after 3 years shall be awarded U Degree in their respective Major Discipline after the successful

completion of the required minimum of courses of total 133 credits. A four-year UG Degree Honours in Major Discipline shall be awarded to those who complete the CUFYUGP with a specific number of courses of total 177 credits, including 12 credits from an optional graduate project/ dissertation/ internship training in their Major/allied discipline, under the supervision of any faculty member of the college/ university/higher education institution. In the case of BBA and BCA programmes, in the Honours stream, there is a 4-credit project in the third year and an 8-credit project in the fourth year in their Major/ allied discipline.

Discipline-Specific Pathway Components (Major/Minor) The discipline-specific pathways allow the learner to pursue in-depth study of a particular subject or discipline and develop competency. These pathways include Major courses, Minor courses, and other optional courses.

(i) Major Component

The major is the subject that is the main focus of study. The student can conduct an in-depth analysis of a particular topic or discipline by selecting a major. Students may be allowed to change majors within the broad discipline at the end of the second semester by being given sufficient time to explore interdisciplinary courses during the first year.

The primary component consists of three types: Discipline-Specific Core (DSC) or Discipline-Specific Elective courses (DSE), research, laboratory, and fieldwork. Every Board of Studies (BoS) selects core and elective courses from their offerings or those provided by other BoS. These courses and their prerequisites are specified in the programme curriculum document.

(ii) Minor Component

It helps the student to gain a broad understanding beyond the major discipline. Students can choose courses from various disciplinary/interdisciplinary minors and skill-based courses relating to a vocational education programme. Students who take a sufficient number of courses in a discipline or an interdisciplinary area of study other than the chosen major will qualify for a minor in that discipline or the chosen interdisciplinary area of study.

After exploring various courses, students may change the minor and vocational stream choice at the end of the second semester.
